Surface Pro Solutions

The Surface Pro is designed for versatility. Powerful enough to replace a laptop, but compact enough to take wherever you work.

At Kensington, we have worked hand in hand with Microsoft to design a range of accessories that have been certified Designed For Surface, enabling users to get the most out of their device in all work environments.

Kensington

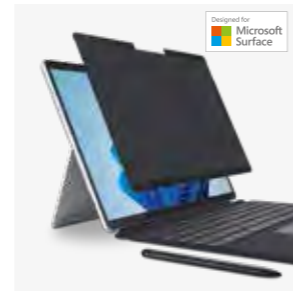

Security

KEYED CABLE LOCK FOR SURFACE™ PRO & SURFACE™ GO

Clamps around kickstand to physically secure Surface Pro or Surface Go.

K68134WW

Made from recycled water bottles. Fleece-lined interior with exterior pockets.

K60102WW

11" UNIVERSAL SLEEVE

Reinforced sleeve with soft interior lining protects against scratches.

K62609WW

Surface Laptop Solutions

The Surface Laptop has become a go-to device for professionals, known for its combination of style and performance in a traditional laptop form factor. However as with many ultra-thin devices, the Surface Laptop offers minimal connectivity ports.

Kensington offers a range of accessories that allow you to make the most of the powerful Surface Laptop, enhancing productivity, security and wellbeing whether you're at your desk or on the go.

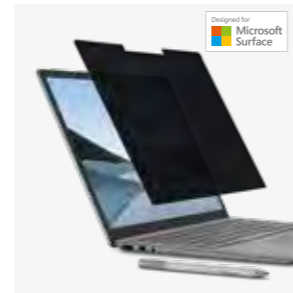

Kensington

Security

LAPTOP LOCKING STATION 2.0

Register & Retrieve™

The industry-leading Register & Retrieve™ Lock Management Portal is a smart cloud-based platform for the management of all Kensington locks and combination codes.

IT ADMINISTRATORS

- Register locks individually or to groups
- Manage Master, Single or Like keyed programs
- Create user accounts so users can order replacement keys and save combination codes
- Record lock ownership and download reports
- Find owners of lost keys
- Reassign locks to new users

USERS

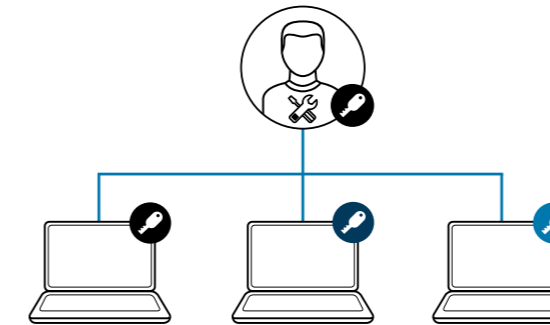

- Order replacement keys
- Retrieve & store combination codes

WWW.KENSINGTON.COM/REGISTER&RETRIEVE

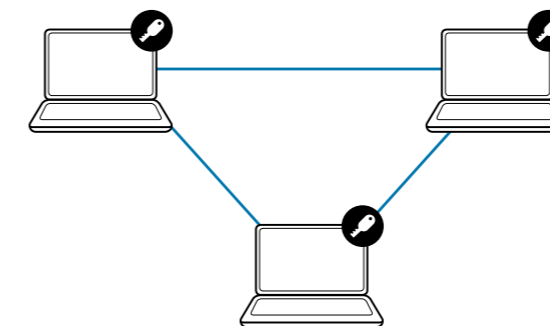

Custom Keyed Solutions

MASTER KEYED Admin Access with User Keys

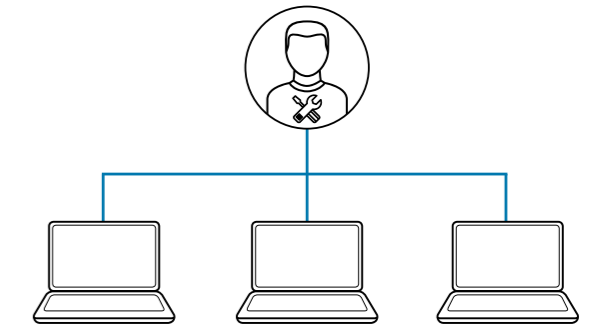

The Kensington Master Keyed locking system gives IT administrators universal access to unlock any piece of equipment with a master key while allowing employees to carry their own individual locks and keys. This gives employees the power to protect their laptops with personal locks that can be used anywhere in the office or on the go.

LIKE KEYED Each Key Opens Every Lock

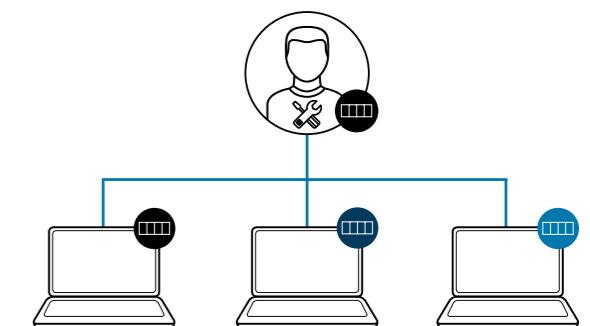

Provide wider flexibility and freedom to access equipment by offering a department, office or lab identical shared keys. This solution offers a solid layer of security against non-employee theft without restricting employee access and productivity, making efficient use of department budgets.

SINGLE KEYED Admin-Only Access

Implement high-level, convenient on-site security by physically securing company equipment using identical locks with keys that are restricted to IT staff. One master key opens them all, giving the IT manager ultimate control and access.

MASTER CODED Admin Access with User Combination

Combination locks are ideal for field based staff or remote locations where keyed locks aren't practical. ClickSafe® Master Coded Locks allow users to set their own unique combination code. Administrators can overcome the users code using a ClickSafe® ComboGenie.
